

As at **26 August 2024** there were **176,930** unique individuals on the register.

Some people need to register on more than one part of the Register; this brings the total number of registrations to **249,784**

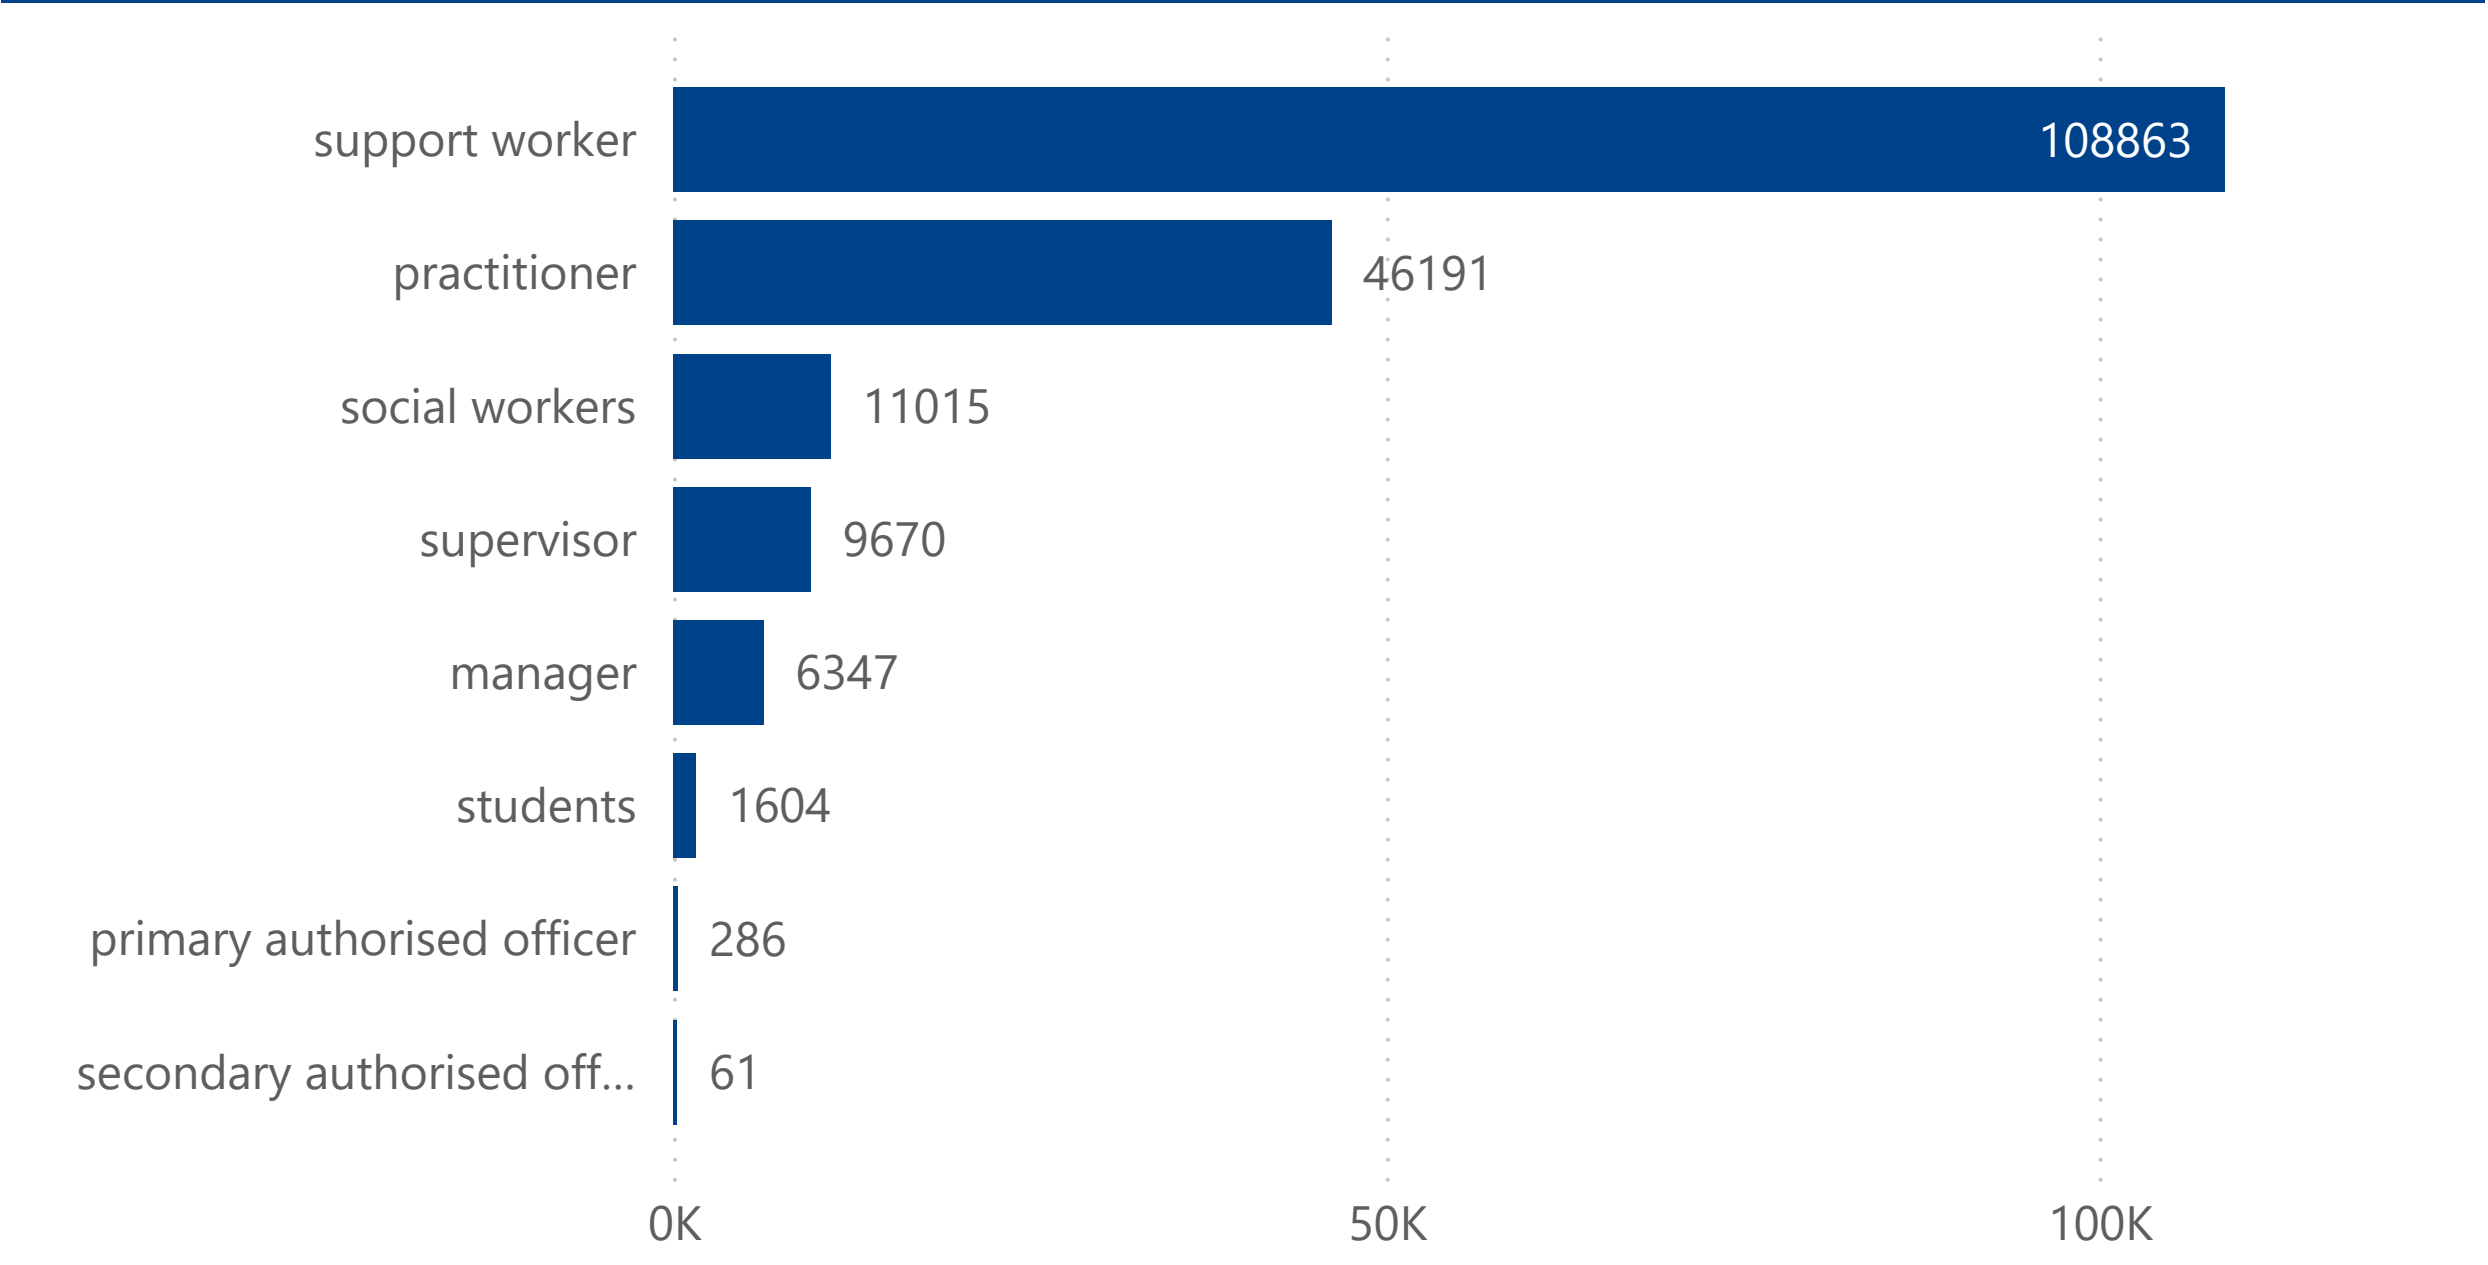

Number of individuals on each register part

Number of individuals on each register type

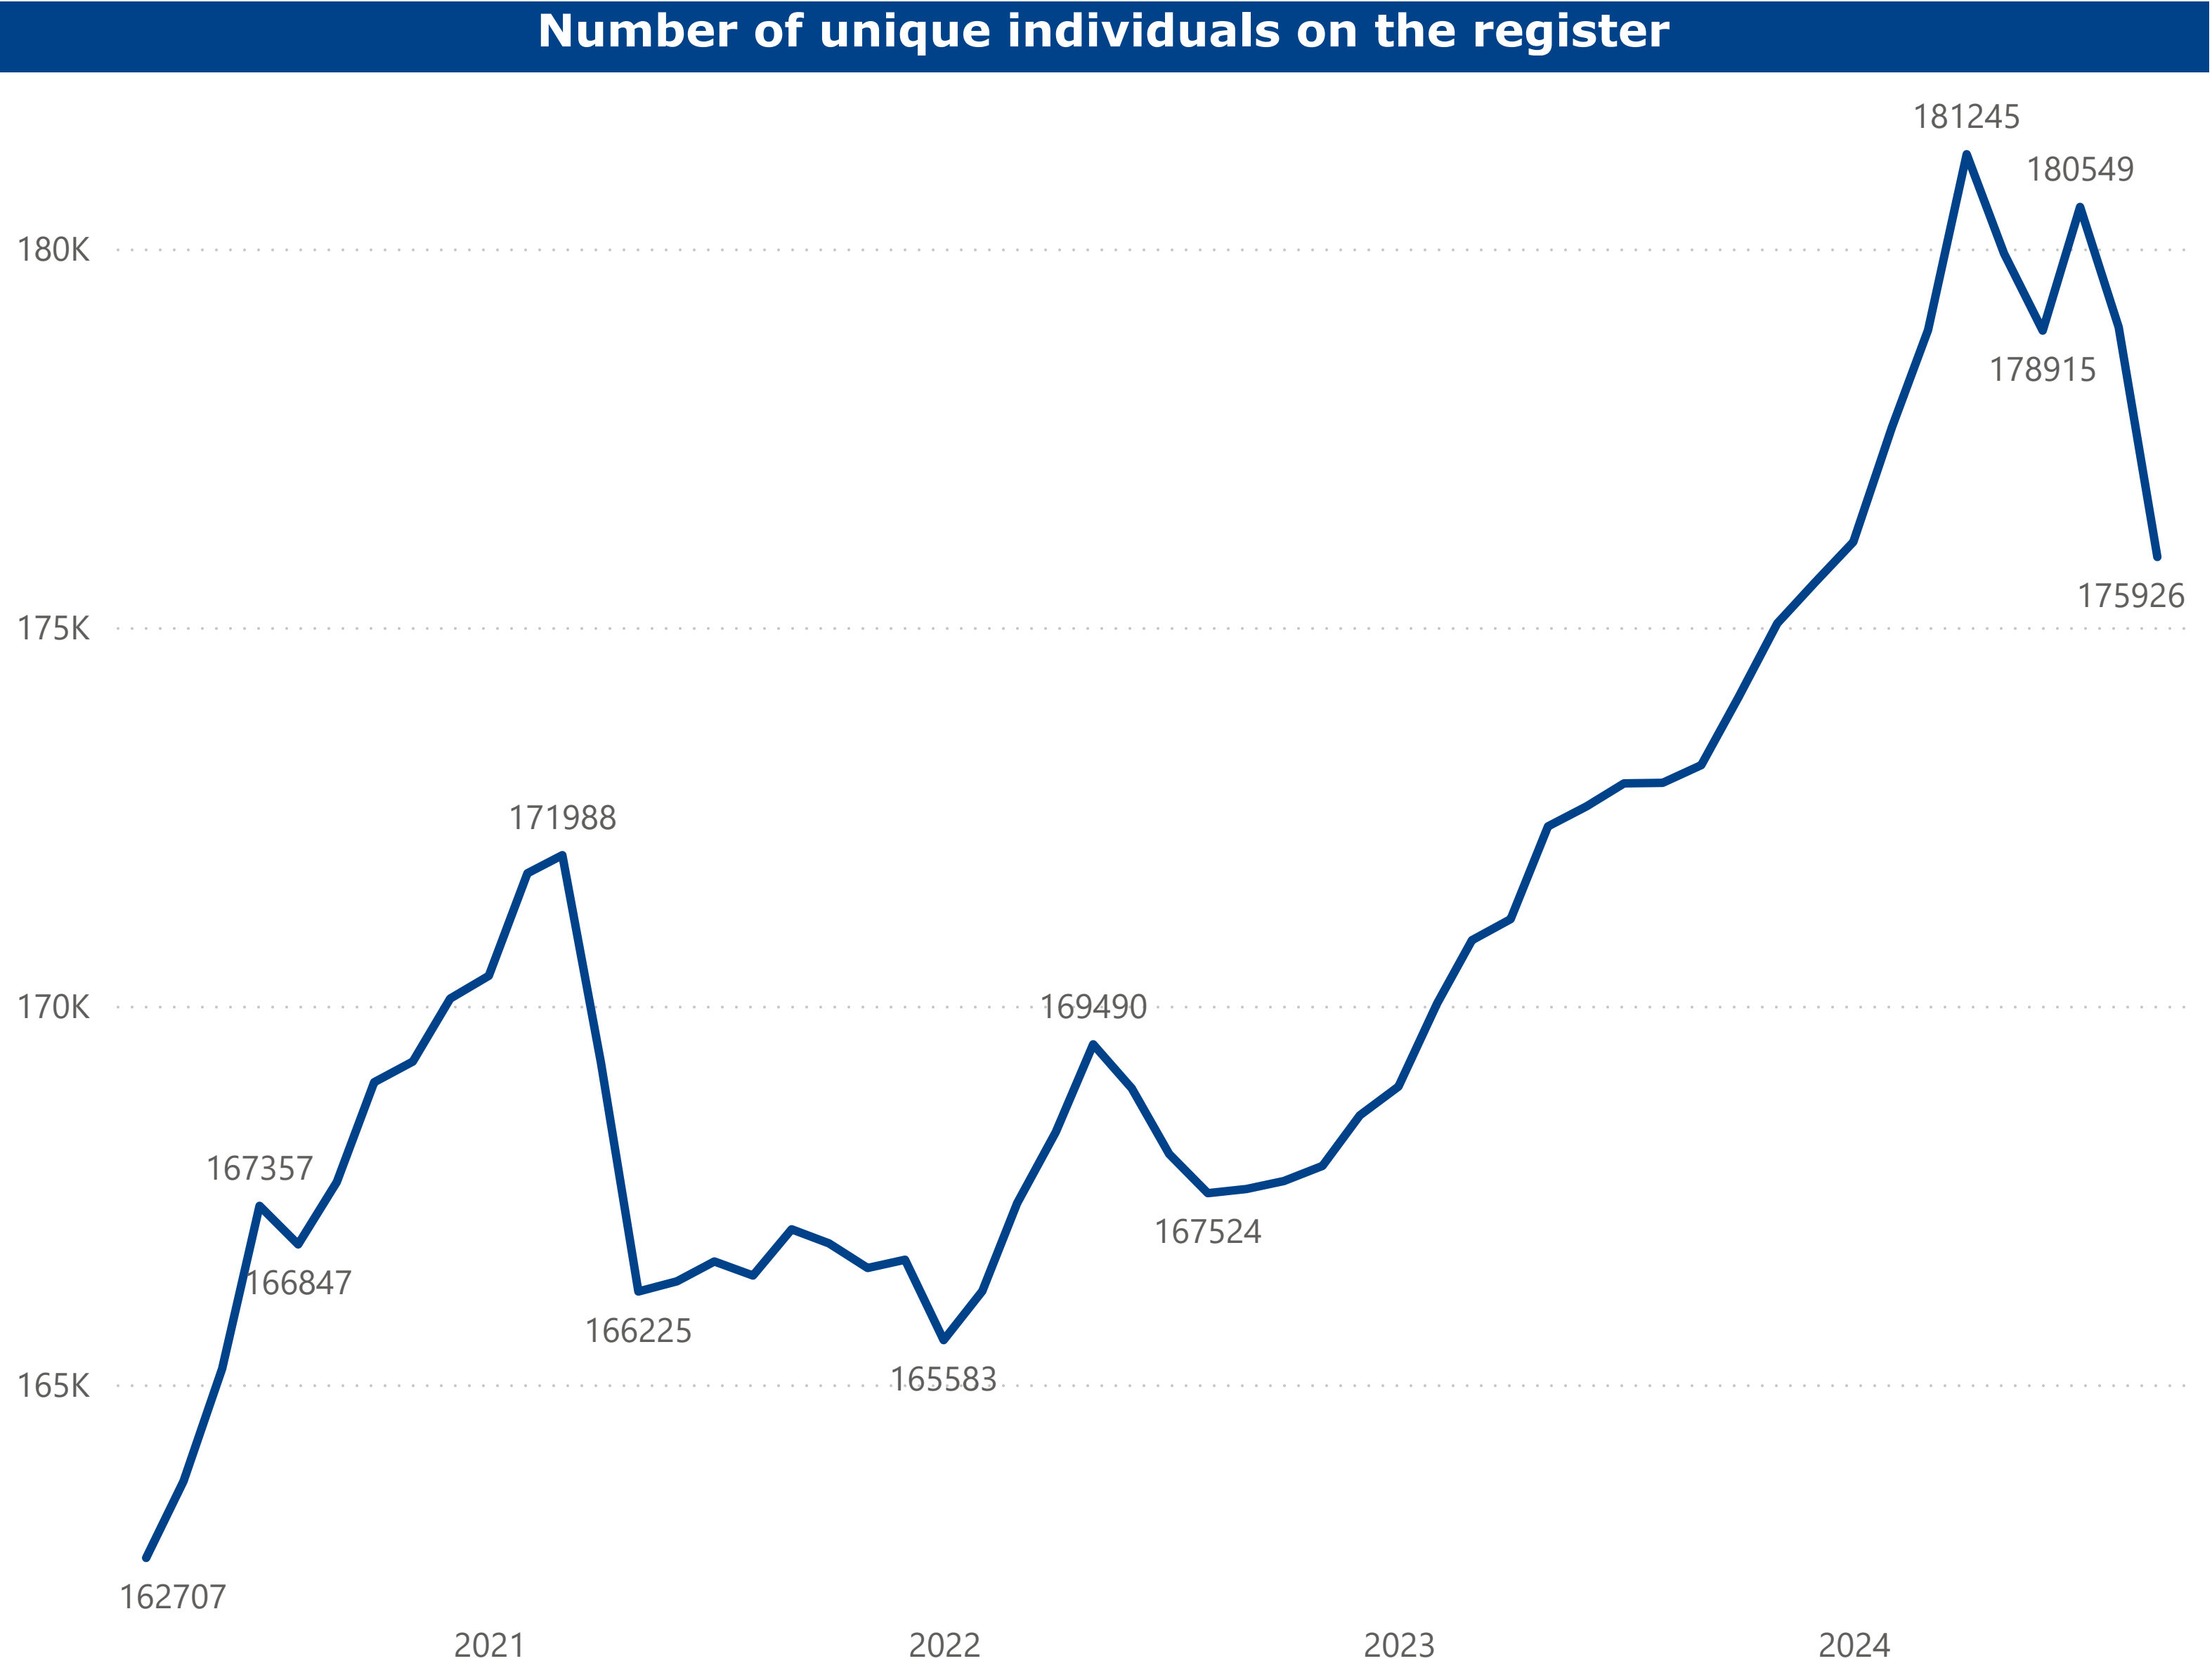

Number of individuals on each register level

This chart shows how the number of unique individuals has changed.

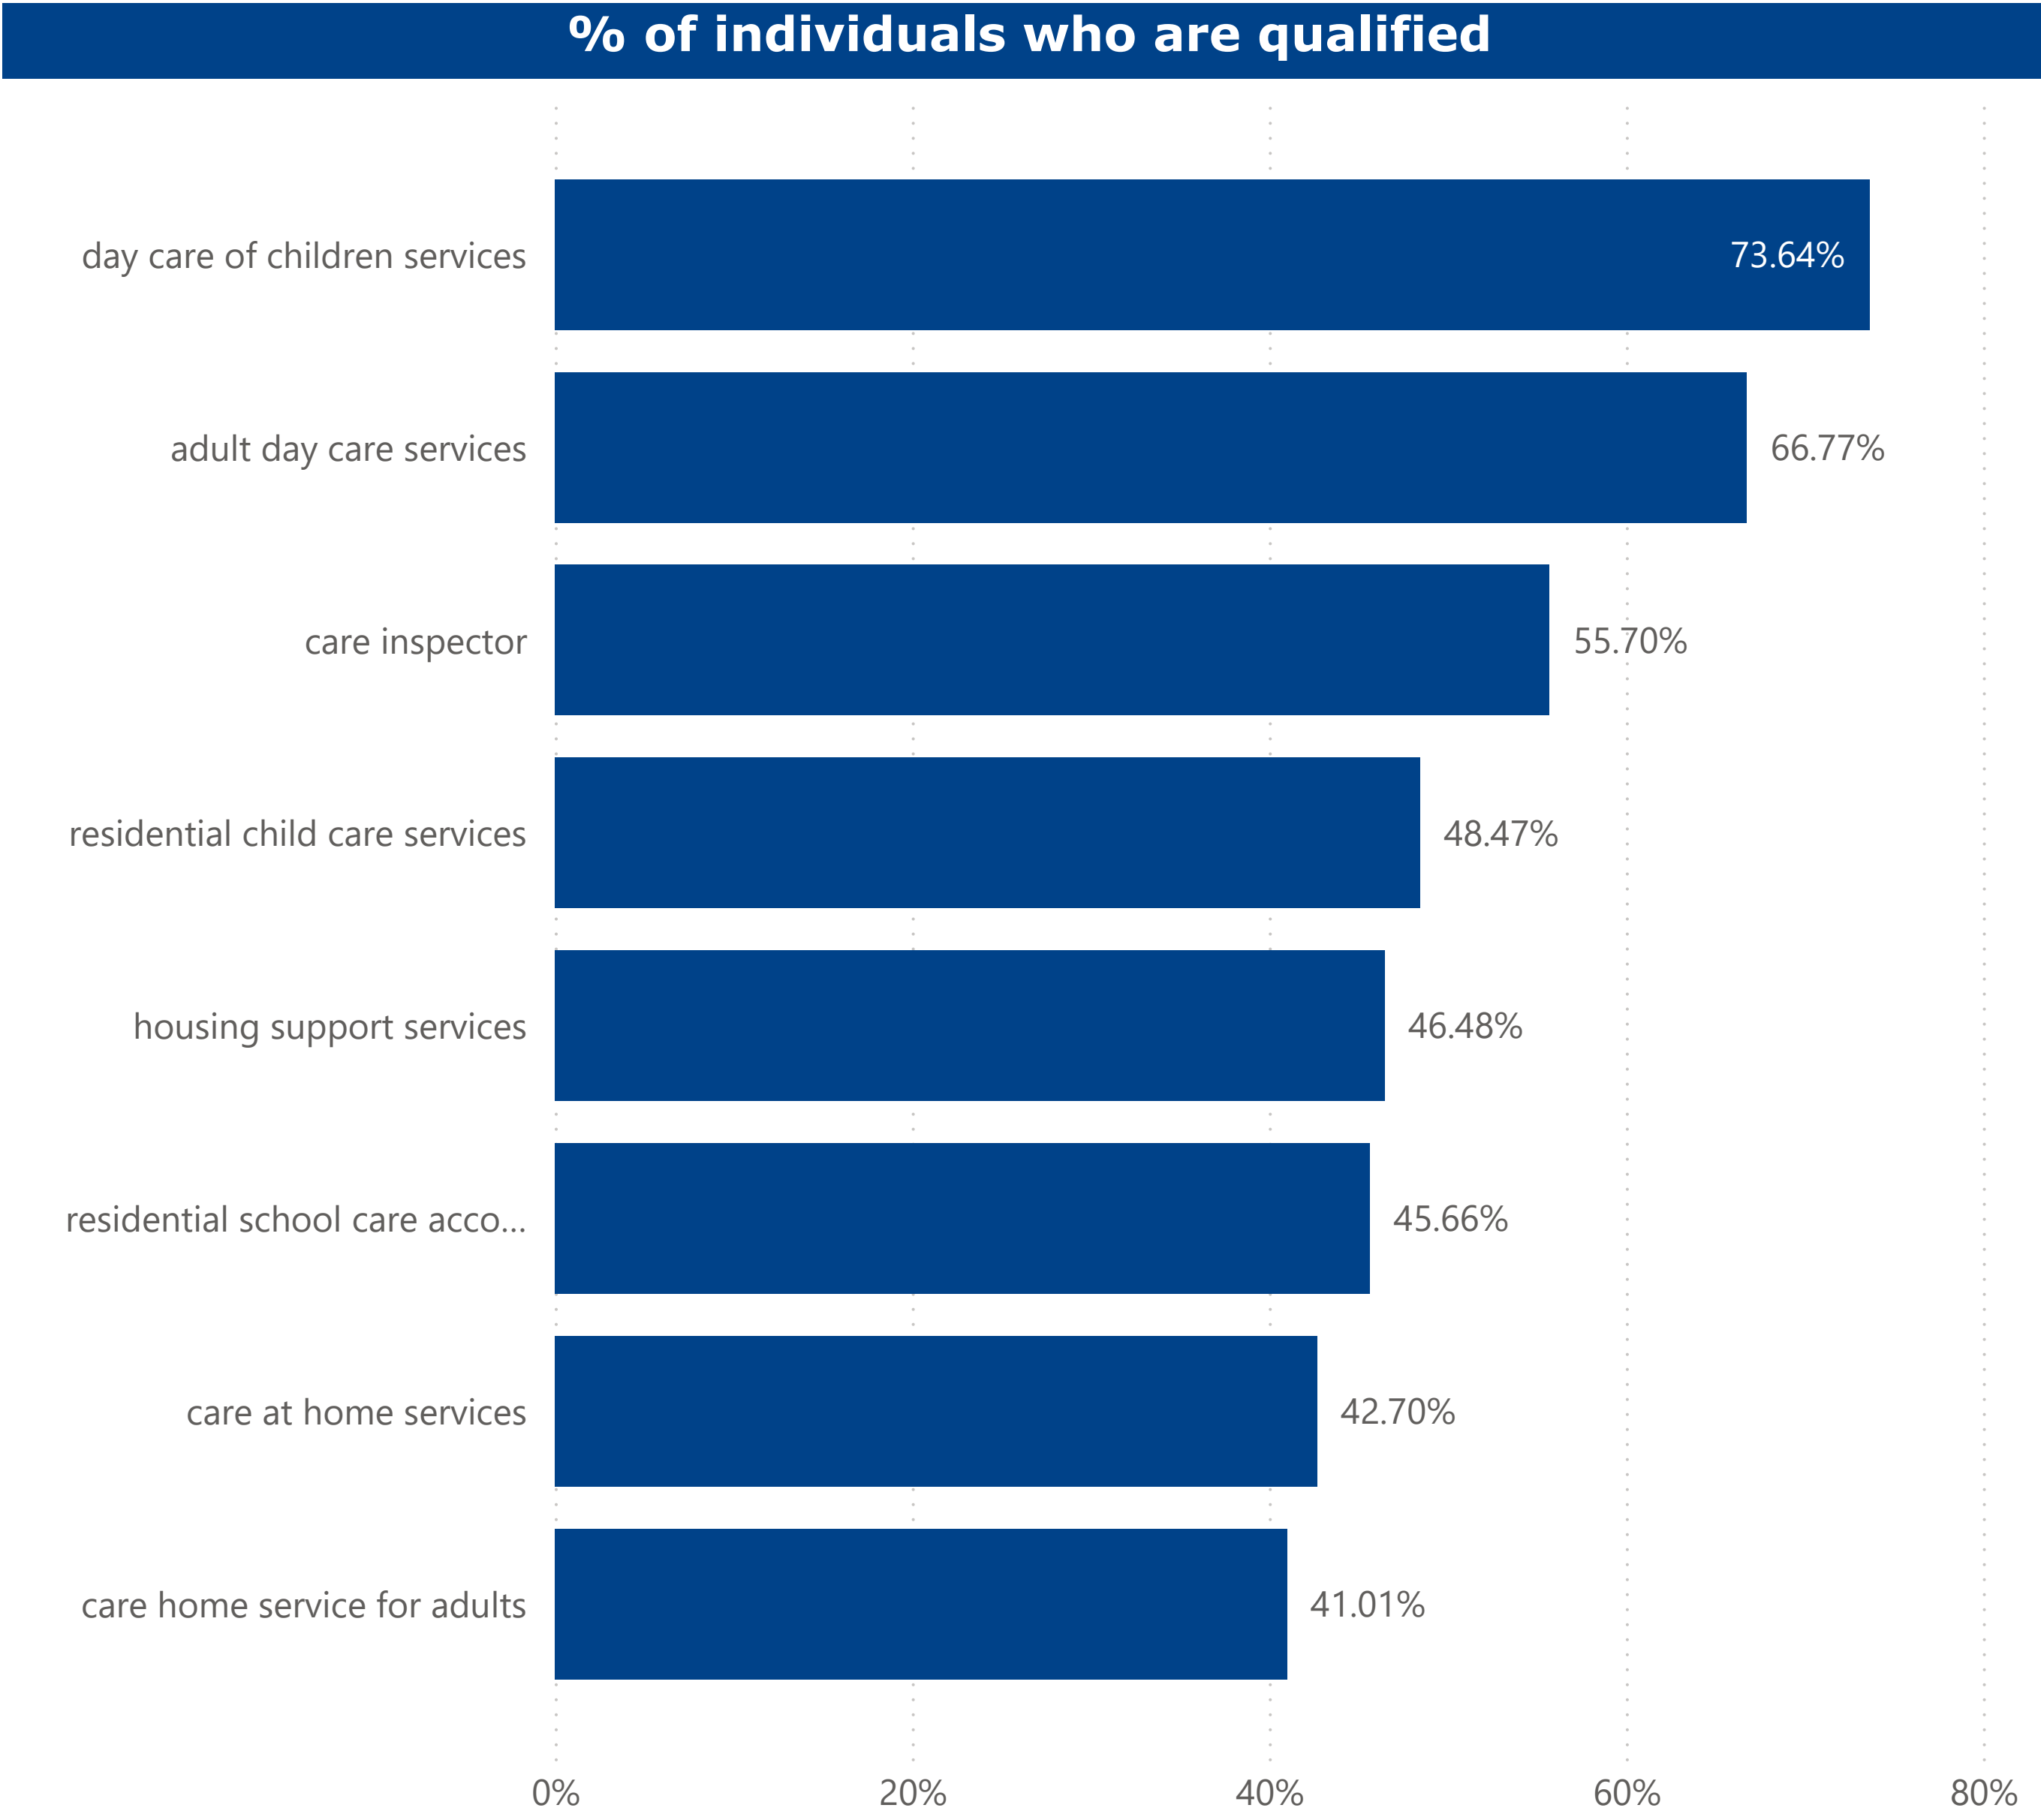

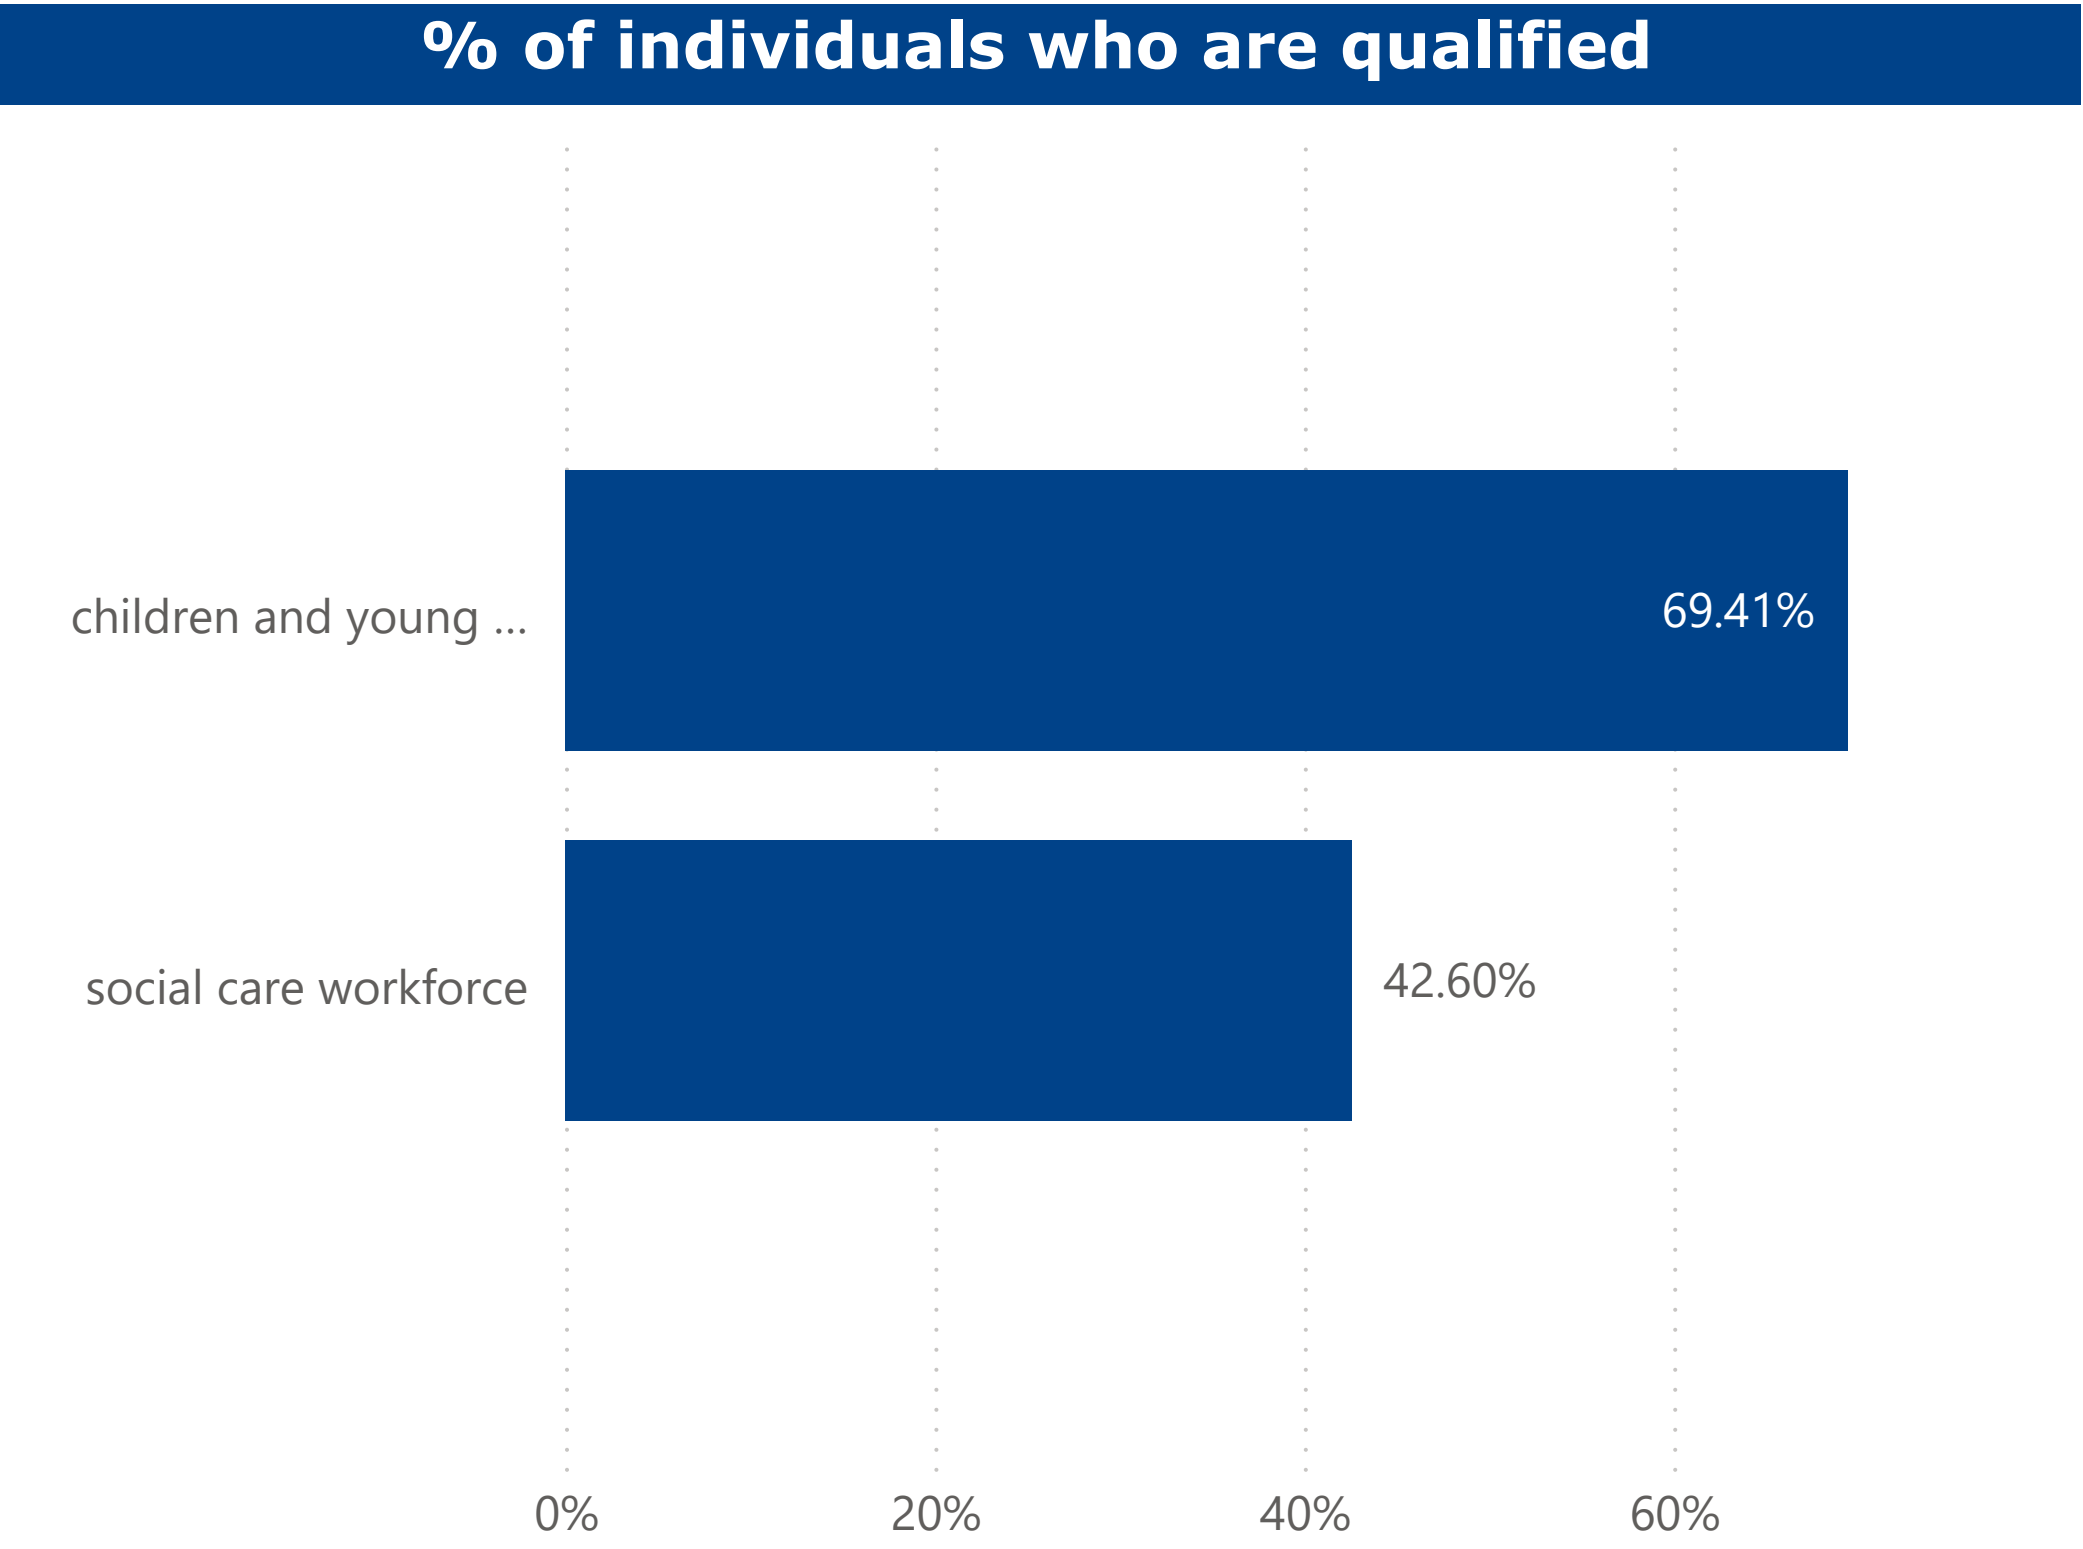

Between April 2020 and March 2021 in response to the pandemic we did not remove people from the register for non-payment of fees.

In April 2021 we removed people who had not paid their fees because they were no longer working in the sector. This explains the fluctuation over this period.

96245 (**54.40%**) individuals have the relevant qualifications.

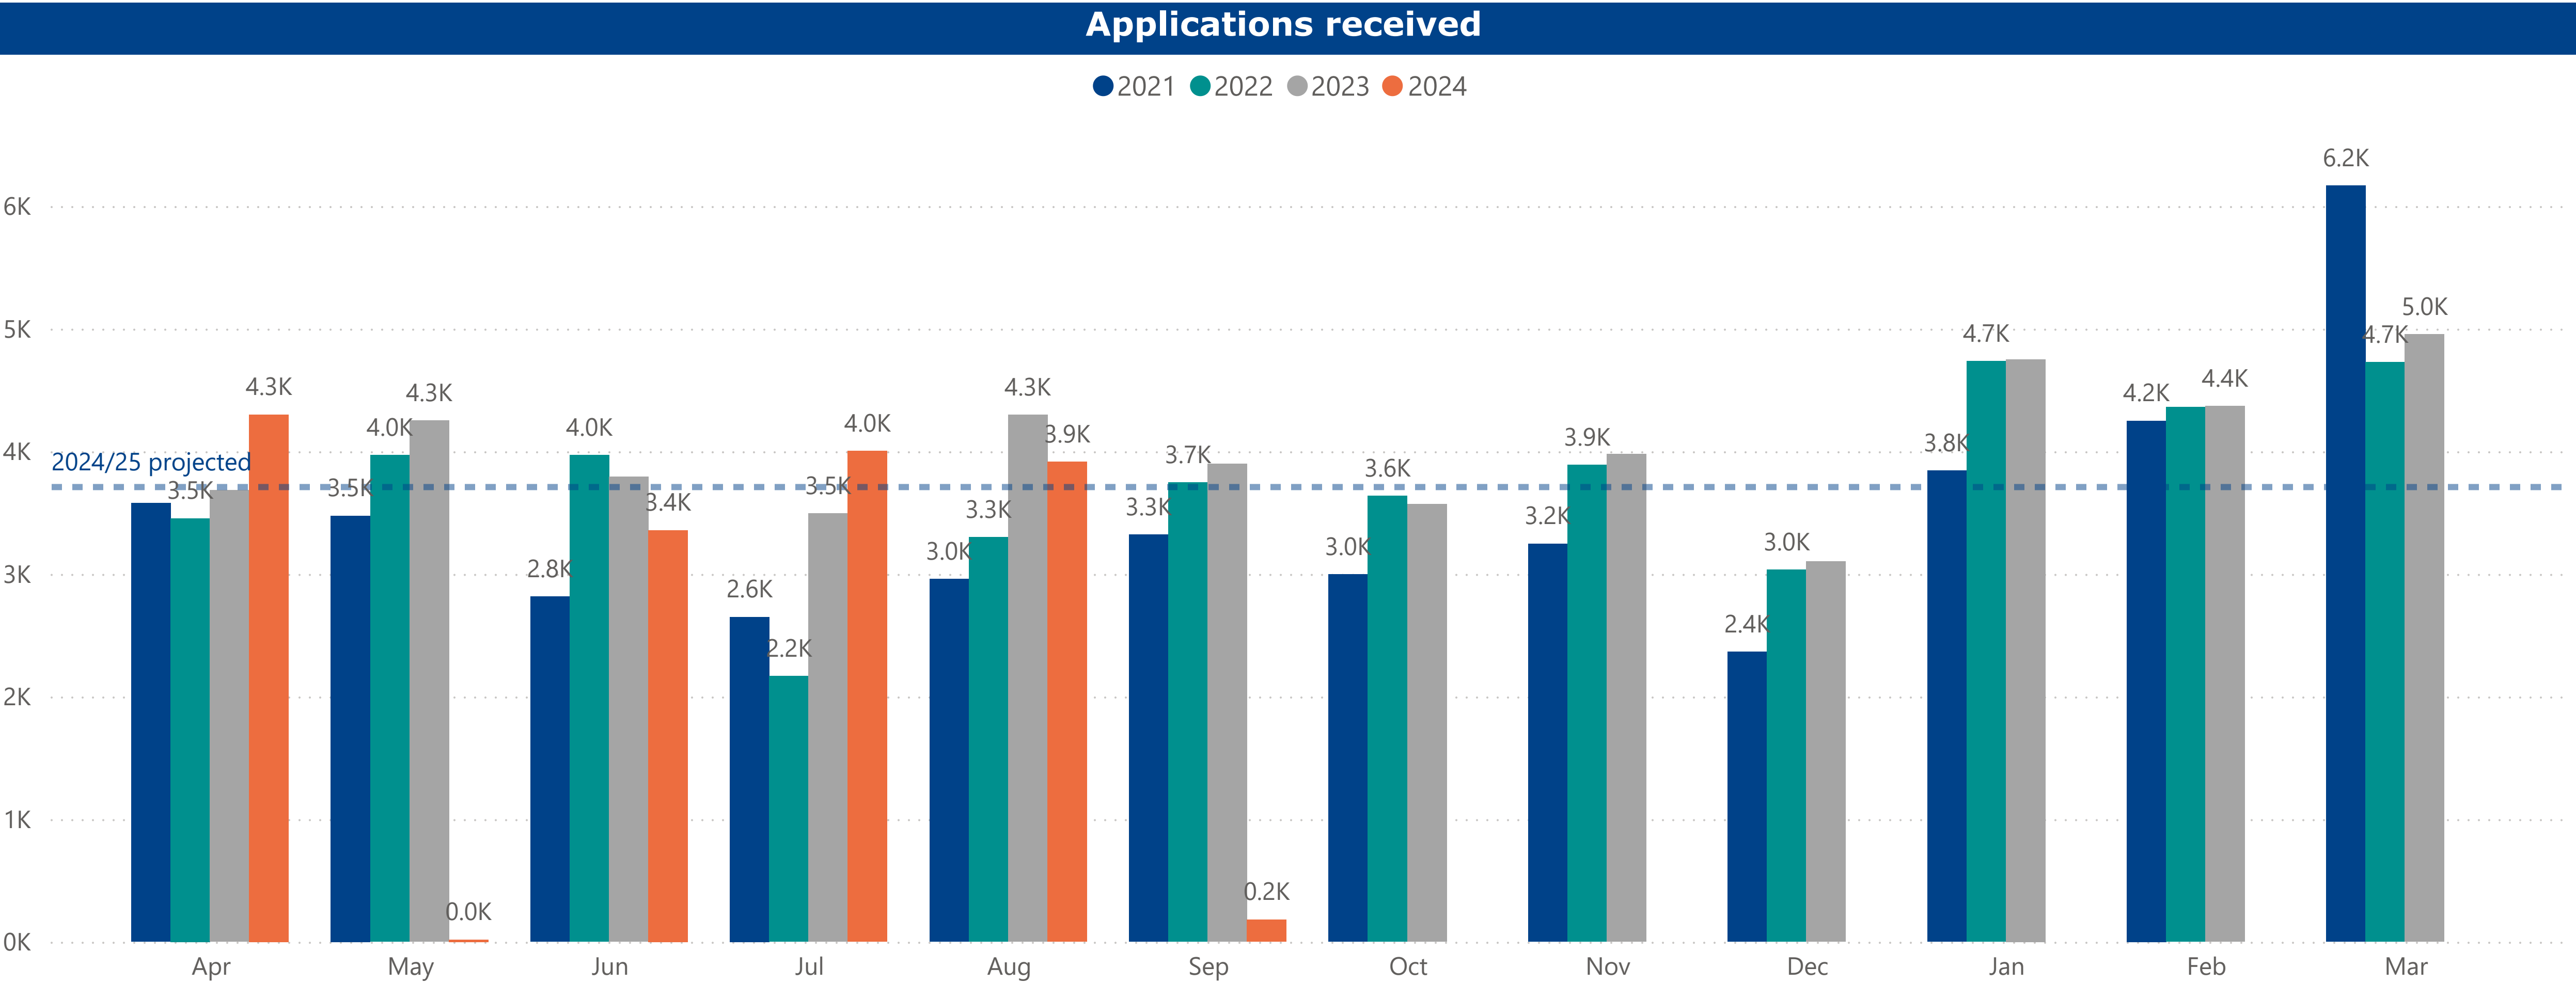

People who are on more than one part of the register need to do the qualification for each part (although some parts have the same qualification requirement, e.g. Housing Support Services and Care at Home Services).

3. How many applications are we receiving?

We projected that we would receive applications from 44,496 individuals in the 2024/25 financial year.

By the end of August, we were projected to receive applications from 18,540 individuals, however we have actually received applications from 15,572 individuals.

Average time in days to process an application from date of receipt
